

# Welcome Homez

A global network of move-in ready apartments for a month, a year, or longer.

(01)

## A seamless renting experience

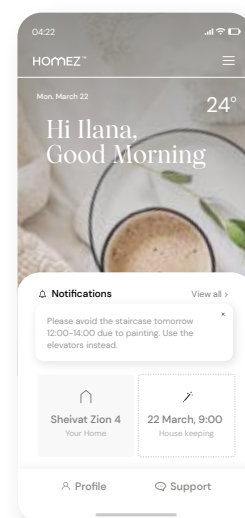

Relocating is typically a slow, complex, and costly process. Homez offers a hassle-free way to rent gorgeous apartments or entire buildings for your employees.

### Consistent

Homez is not a listings site. We handpick, furnish, and maintain all of our properties, providing our residents with a consistently excellent experience. Moreover, our regular upkeep services are in line with the most rigorous health and safety standards.

### Digital

Homez streamlines and simplifies the renting process by offering remote home tours, instant online bookings, and one point of contact for all of your housing needs. Our friendly app provides your employees with keyless access, grocery and cleaning services, and one-tap 24/7 support.

### Flexible

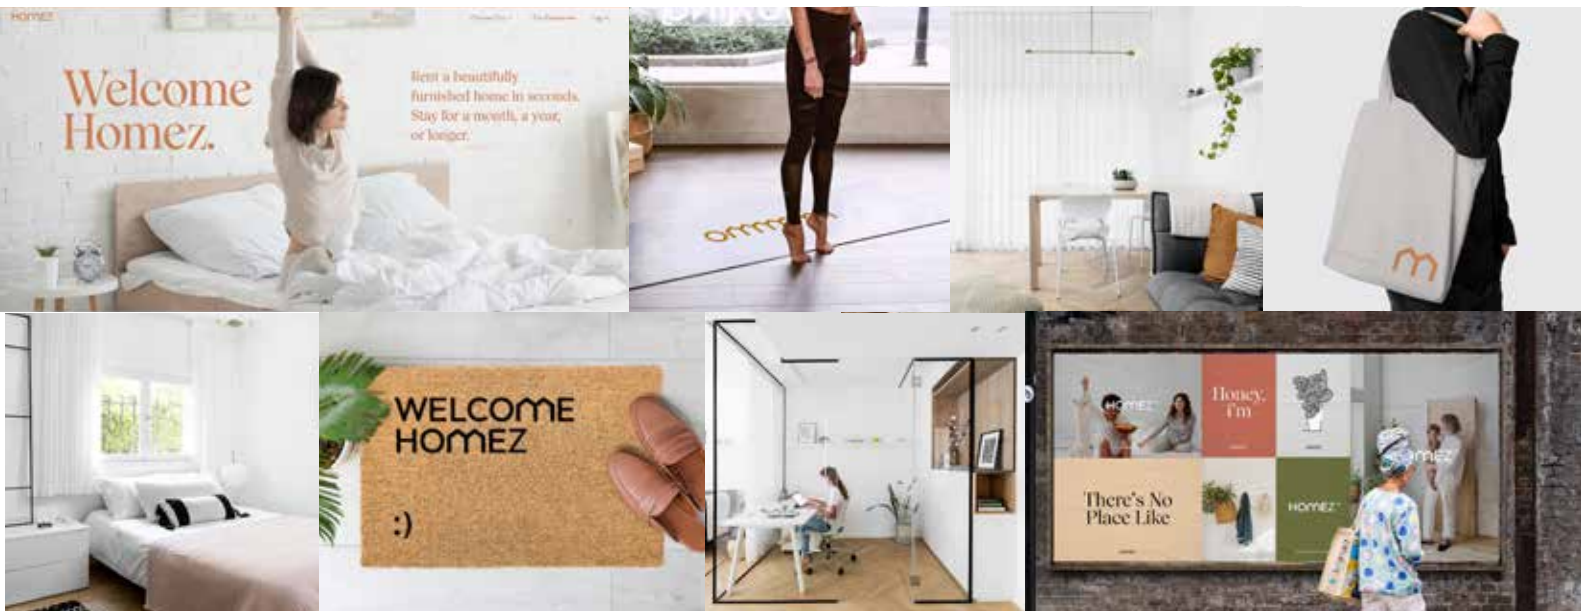

No more yearly contracts. Extending or shortening a stay can be done entirely online or in-app.

### Competitive Pricing

Save on traditional accommodation costs while exceeding your employees' hospitality expectations.

“I can't thank Homez enough for the warm welcome and on-going support. What an experience!”

Thomson James Morrison,  
DB Engineering & Consulting
